Education

MCT's Rajiv Gandhi Institute of Technology, Mumbai University — Mumbai, India
B.Tech in Artificial Intelligence & Data Science — *2025 – 2028*
CGPA: 9.27/10.0

SVKM's Shri Bhagubhai Mafatlal Polytechnic and College of Engineering — Mumbai, India
Diploma in Electronics & Telecommunication Engineering — *2022 – 2025*
CGPA: 9.3/10.0

Experience

Industrial Automation Intern — 2024 – 2025
NM Automation & Control Pvt. Ltd. — *Malad, Mumbai*

- Completed a **six-month internship** with practical exposure to **PLC programming, HMI interfaces, sensor interfacing, and control-panel wiring**.
- Gained exposure to **firmware and control-software workflows**, including **I/O handling, control logic, and hardware-software integration** for industrial automation.
- Learned **automation system design, software/hardware troubleshooting, and industrial safety practices** for sensor-driven control systems.

Content Secretary – *Elites Dance Committee* — *Current*

- Support **content planning and written communication** for dance activities and committee events.

Assistant Managing Director – *CRID Committee* — *Current*

- Supported **committee management, team coordination, and planning** of committee activities.

Projects

MidIntel – AI-Powered Remote Healthcare & Patient Monitoring Platform – View Project — Aug 2026

- Developed a **Django REST Framework** platform for real-time monitoring and historical analysis of **temperature, SpO_2, blood pressure, blood glucose, and ECG** using REST APIs, SQL, and MQTT.
- Built **patient records, health alerts, report uploads, and real-time data ingestion**; implemented an **AI disease prediction module** achieving **91.7% accuracy** on the available Kaggle dataset.
- Integrated **Kimi-K2.6 via Ollama** for simplified health explanations and recommendations, with an **AI-assisted ECG analysis** workflow.
- **Tech:** Python, Django REST Framework, SQL, JavaScript, AI/ML, Kimi-K2.6, Ollama, Kaggle, MQTT

WriteMate – AI-Assisted Blogging Platform – View Project

- Built a **Django blogging platform** integrating **AI-assisted writing** with blog management.
- Integrated **AI content generation** for blog drafts and **editing assistance** to enhance existing text.
- Designed a **user-friendly workflow** for creating, editing, and managing posts in one application.
- **Tech:** Python, Django, AI-assisted content generation

Smart Expense Splitter

- Developed a **multi-user application** to record group expenses and **split costs among participants**.
- Implemented **automated expense tracking** and calculation of **each participant's share and balance**.
- Organized shared-expense records and per-user balances for **clear spending reviews and reconciliation**.

Skills

Programming Languages: Java, Python, SQL, JavaScript
Frameworks/Web: Django, Django REST Framework, REST APIs, HTML, CSS
Databases: MySQL, SQLite
AI/ML & Integration: AI-assisted content generation, disease prediction, Ollama, MQTT
Automation: PLC programming, HMI, sensors, control panels
Tools & Platforms: VS Code, Microsoft Office, Linux, Excel, Power BI
Soft Skills: Problem Solving, Communication, Teamwork, Leadership, Time Management

Achievements

National Level Project Competition – Samarthya 2026 [Certificate]
3rd Rank in College – Diploma in EXTC Engineering, SBMP
